

BC Class 4 Taxi Practice Questions

ICBC-style question and answer study aid | Prepared May 12, 2026

Note: ICBC does not publish the exact real test questions. These practice questions are based on the topic areas covered by ICBC study material for Class 4 and general B.C. road rules.

Focus areas: passenger safety, professional driving, pre-trip inspection, defensive driving, traffic signs, right-of-way, weather, and emergency handling.

Class 4 Taxi Practice Q&A - Set 1

1. What licence do you need to drive a taxi or ride-hailing vehicle in B.C.?

Answer: Class 4 commercial driver's licence.

2. What is the minimum age for a Class 4 licence in B.C.?

Answer: 19 years old.

3. What licence must you already hold before applying for Class 4?

Answer: A full-privilege Class 5 or equivalent licence.

4. If you pass the Class 4 road test in a vehicle seating up to 10 people including the driver, what licence do you receive?

Answer: Restricted Class 4.

5. If you pass in a vehicle seating 11-25 people including the driver, what licence do you receive?

Answer: Unrestricted Class 4.

6. Before driving a taxi, what should you check during a pre-trip inspection?

Answer: Tires, lights, brakes, horn, mirrors, windshield, wipers, seat belts, doors, fluid leaks, and emergency equipment.

7. Why is a pre-trip inspection important?

Answer: To make sure the vehicle is safe before carrying passengers.

8. When picking up passengers, where should you stop if possible?

Answer: At the curb or a safe legal place, away from traffic danger.

9. When should you start driving after passengers enter?

Answer: Only after passengers are seated, doors are closed, and it is safe to move.

10. What should you do if a passenger is elderly or has mobility issues?

Answer: Give extra time and assistance, and make sure they enter and exit safely.

11. Can a driver carry more passengers than the vehicle is designed for?

Answer: No.

12. Who is responsible for passenger safety?

Answer: The driver.

13. What should you do if a passenger becomes aggressive or unsafe?

Answer: Stay calm, avoid arguing, stop in a safe place if needed, and contact help if necessary.

14. What is defensive driving?

Answer: Driving in a way that prevents crashes by anticipating hazards and leaving space.

15. What following distance should a commercial passenger driver keep?

Answer: A safe distance that allows enough time to stop; increase it in bad weather, heavy traffic, or poor visibility.

16. What should you do when approaching a railway crossing with flashing lights?

Answer: Stop and wait until it is safe and legal to cross.

17. What should you do if an emergency vehicle approaches with siren or flashing lights?

Answer: Pull over safely to the right and stop.

18. What is the speed limit in a school zone in B.C. unless posted otherwise?

Answer: 30 km/h on school days, usually 8 a.m. to 5 p.m.

19. What is the speed limit in a playground zone unless posted otherwise?

Answer: 30 km/h from dawn to dusk.

20. If traffic lights are not working, what should you do?

Answer: Treat the intersection like a four-way stop.

21. When should headlights be used?

Answer: At night, in poor visibility, rain, fog, snow, or whenever needed to see and be seen.

22. What should you do if you feel tired while driving commercially?

Answer: Stop driving and rest. Fatigue is dangerous and can be as risky as impaired driving.

23. Can a commercial driver use a phone while driving?

Answer: No, not unless legally using approved hands-free equipment. Distracted driving is unsafe and illegal.

24. What should a taxi driver do before reversing?

Answer: Check all around, use mirrors, shoulder check, reverse slowly, and avoid backing up when possible.

25. What is the safest way to deal with bad weather?

Answer: Slow down, increase following distance, use lights, brake gently, and stop if conditions become unsafe.

Class 4 Taxi Practice Q&A - Set 2

26. When driving passengers for hire, what should your main priority be?

Answer: Passenger safety.

27. What should you do before opening a door into traffic?

Answer: Check mirrors and shoulder check to make sure it is safe.

28. Why should passengers enter and exit from the curb side when possible?

Answer: It keeps them away from moving traffic.

29. What should you do if your vehicle has a mechanical problem while carrying passengers?

Answer: Stop in a safe place, turn on hazard lights, protect passengers, and arrange help.

30. When driving a taxi, should you argue with an angry passenger?

Answer: No. Stay calm, professional, and avoid escalating the situation.

31. What should you do if a passenger asks you to speed?

Answer: Refuse politely and obey the speed limit.

32. What should you do if a passenger refuses to wear a seat belt?

Answer: Remind them that seat belts are required and do not move until it is safe/legal.

33. When are you allowed to exceed the speed limit?

Answer: Never, except emergency vehicles under specific legal conditions.

34. What does a solid yellow line mean?

Answer: Passing is not allowed or is unsafe, depending on road markings and conditions.

35. What does a flashing red traffic light mean?

Answer: Stop, then proceed only when safe.

36. What does a flashing yellow traffic light mean?

Answer: Slow down and proceed with caution.

37. At a four-way stop, who goes first?

Answer: The vehicle that arrived first. If two arrive at the same time, yield to the vehicle on your right.

38. When turning left at an intersection, who must you yield to?

Answer: Oncoming traffic, pedestrians, and cyclists.

39. When turning right, what should you check for?

Answer: Pedestrians, cyclists, and vehicles, especially in your blind spot.

40. What should you do before changing lanes?

Answer: Mirror check, signal, shoulder check, then move only when safe.

41. Why is shoulder checking important?

Answer: Mirrors do not show all blind spots.

42. What is hydroplaning?

Answer: When tires ride on water and lose contact with the road.

43. What should you do if your vehicle starts to hydroplane?

Answer: Ease off the accelerator, avoid hard braking, and steer gently.

44. What should you do if your brakes fail?

Answer: Pump the brakes, shift to a lower gear, use the parking brake carefully, and steer to a safe stop.

45. What should you do if your tire blows out?

Answer: Hold the steering wheel firmly, ease off the gas, avoid hard braking, and pull over safely.

46. What should you do if your vehicle starts to skid?

Answer: Look and steer where you want to go; avoid sudden braking or acceleration.

47. Why should taxi drivers avoid sudden stops and sharp turns?

Answer: They can injure passengers and cause loss of control.

48. What should you do before starting your shift?

Answer: Complete a vehicle safety check/pre-trip inspection.

49. What lights must be checked before driving?

Answer: Headlights, brake lights, tail lights, turn signals, hazard lights, and licence plate light.

50. What should you check on tires?

Answer: Tread depth, inflation, damage, bulges, and uneven wear.

51. What should you check inside the vehicle?

Answer: Seat belts, mirrors, horn, wipers, defroster, gauges, brakes, and emergency equipment.

52. Why must windows and mirrors be clean?

Answer: To maintain good visibility.

53. What should you do if the check engine light or warning light comes on?

Answer: Check the issue and do not continue if the vehicle may be unsafe.

54. Can you drive a commercial passenger vehicle if it is unsafe?

Answer: No.

55. What should you do if road conditions are icy?

Answer: Slow down, increase following distance, brake gently, and avoid sudden steering.

56. When following a motorcycle, should you leave extra space?

Answer: Yes. Motorcycles can stop quickly and are more affected by road conditions.

57. When passing a cyclist, what should you do?

Answer: Leave plenty of space and pass only when safe.

58. What should you do near a stopped bus?

Answer: Watch for pedestrians and be ready to stop.

59. What should you do at a crosswalk with pedestrians waiting?

Answer: Stop and let them cross when required.

60. What should you do if a pedestrian is crossing illegally?

Answer: Slow down or stop. Safety comes first.

61. What should you do when approaching a yellow light?

Answer: Stop if you can do so safely.

62. Can you block an intersection in traffic?

Answer: No. Enter only if you can clear the intersection.

63. What does a red "X" lane signal mean?

Answer: Do not drive in that lane.

64. What does a green arrow mean?

Answer: You may proceed in the direction of the arrow if safe.

65. What should you do before entering a roundabout?

Answer: Yield to traffic already in the roundabout and choose the correct lane.

66. When exiting a roundabout, should you signal?

Answer: Yes, signal right before exiting.

67. Where should you stop at a stop sign?

Answer: Before the stop line; if no stop line, before the crosswalk; if none, before entering the intersection.

68. What is the safest way to park on a hill facing uphill with a curb?

Answer: Turn wheels away from the curb.

69. What is the safest way to park downhill with or without a curb?

Answer: Turn wheels toward the curb or edge of the road.

70. What should you do when approaching fog?

Answer: Slow down, use low-beam headlights, and increase following distance.

71. Should you use high beams in fog?

Answer: No. High beams reflect back and reduce visibility.

72. What should you do if an animal appears on the road?

Answer: Slow down safely, brake firmly if needed, and avoid dangerous swerving.

73. What should a professional driver do after a collision?

Answer: Stop, secure the scene, help injured people, call emergency services if needed, exchange information, and report as required.

74. Why should taxi drivers know their route before driving?

Answer: To avoid unsafe last-minute turns or distractions.

75. What should you do if you miss a turn?

Answer: Continue safely and find a legal place to turn around.
